

Drive Away With My Heart

V1

Just turn the key into that part of me
Just turn the key for a spark
To an engine that has almost seized
Pull my brakes out of park

Just turn my wheels and keep them straight
Give me fuel for a start
Make me feel that it's not too late
Turn the key to my heart

Chorus 1

Alone too long in an empty field
A beauty of a vintage car
I'm a little bit rusty and need a jump-start
Drive away with my heart

V2

Push my pedal and accelerate
Look out for speed bumps ahead
Buckle in while I demonstrate
That I still have some rev

Oh hold my shell and navigate
Right around some broken glass
Puncture wounds that did deflate
All the love from my past

Chorus 1 & Chorus 2

Oh drive away into the open road
Drive somewhere that is far
I'm a little bit rusty with a few broken parts
Drive away with my heart

Outro

Drive away just drive away
Drive away with my heart
Drive away just drive away
Drive away, Drive away, Drive away with my heart
