

Changer

V1

Middle of a room with the shades drawn down
One lamp on with shadows all around
Cast a dim light but it's enough to see
Distance – between you and me

Thousands of light bulbs couldn't help me find
Hidden thoughts residing in your mind
Silence seems to be saying it all
Restless – and we're in freefall

Chorus

I remember all the reasons I fell in love with you
Almost – erased
Caught up with the pace of the things I choose to do
Priorities – misplaced
I can't believe your love has taken leave
Intimate – stranger
Hope there still is time to make you believe
I am – the changer

V2

Images of you and me at play
Rush to my mind from far away
So long ago we were happy
Shadows – of what we've come to be

Time heals all wounds-so the saying goes
But does time cause them –I don't really know
After many years we're off course I fear
Drifting – I wish you were near

Chorus

V3

Happiness is a rear commodity
We used to have it well within our reach
I was preoccupied for too many years
Building – but building hidden tears

How to learn to unlearn what I've been
Talk is cheap-the proof's in what is seen
Change in me is the surest way to
Change you – that's all I can do

Chorus
