

I Am Amazed

V1

I am amazed, I'm amazed
Every day I can count the ways
That my eyes open up as wide as the sea
Morning brings the colour and the shades
Of a universe divinely made
That coalesced from cosmic calamities
And somehow formed a symphony
That lead to what became you and me
I am amazed, I'm amazed

V2

I am in praise, I'm in praise
Of all of my creators ways
In bringing light and shape and live into view
Sunset sanctifies so many things
Like love and loss and what labor brings
I am amazed that I am loving you
Follow logic follow destiny
I thank the stars you're hear with me
I am in praise, I'm in praise

Chorus

And they say the world is smaller
And faster every day
And the more we learn the more we yearn to share it in someway
The spark of life is awesome
Animating night and day
And the synergy with you and me keeps me amazed – I am amazed

V3

I am not fazed, I'm no fazed
By all the misery and hate
That the world seems to have an abundance of
Night time brings forth secret scary dreams
And this grown man knows not what they mean
But I slip al little closer next to you
And find some comfort in your arms
The keep the black holes a distant harm
I am not fazed, I'm not fazed

Outro

I am not fazed, I'm still amazed.
